Manorcare receives 2015 Best Businesses of Tulsa Award Manorcare Health Services-Tulsa has been selected for the 2015 Best Businesses of Tulsa Award in the Physical Therapy category by the Best Businesses of Tulsa Award Program. The Best Businesses of Tulsa Award Program is an annual recognition that identifies companies that have achieved marketing success in their local community and business category. Winners are determined based on the information gathered both internally by the Best Businesses of Tulsa Award Program and data provided by third parties. PostRock Energy announces interim president and CEO PostRock Energy Corp. announced Terry W. Carter has retired from his position as the company's president and CEO effective and the board of directors has elected current Vice President of Operations Clark Edwards as interim president and CEO. Carter will also step down as a director, and the board has elected Edwards to take his place. Edwards has served as PostRock's vice president of operations since February 2012 after serving as the company's director of midcontinent field operations since December 2010 and in other roles for the company's predecessor entities. Arvest Mortgage Division announces role changes Arvest Bank's Mortgage Division official that Matt Kendall has been promoted to executive director of mortgage operations and Kathleen Craig hired as director of mortgage production operations. Kendall has worked at Arvest for 17 years and will be responsible for production operations, vendor management, mortgage IT and litigation spanning both the company's production and servicing areas. He began at Arvest as an internal auditor and worked in the IT department before holding several leadership positions, including CEO, at Waco Title. He was named director of mortgage production operations more than two years ago and was responsible for Arvest's residential mortgage loan manufacturing and closing processes. Craig will report to Kendall and be based in Tulsa. She has

production operations responsibilities in both Tulsa and Lowell, Ark. Craig has more than 25 years of mortgage banking experience and brings knowledge of retail mortgage lending to Arvest.

In a previous job as a regional operations manager and in other senior leadership

roles, Craig has developed operational efficiencies, risk management policies and procedures and customer service best practices, while also supporting sales across all areas of mortgage lending. Arvest Bank operates more than 270 bank branches in Arkansas, Oklahoma, Missouri and Kansas through a group of 16 locally managed banks, each with its own board and management team.

These banks serve customers in more than 120 communities. National Cowboy & Western Heritage Museum names chief development officer The National Cowboy & Western Heritage Museum has appointed Jan Taylor as chief development officer. Taylor joined the museum in 2011 after several years in the nonprofit realm and has made significant contributions to the national institution.

Her role will entail leading development efforts for the museum and ensuring that a

long-term, sustainable approach is taken to continue the museum's position serving the community for

years to come. Frost & Sullivan honors Semitrex Semitrex, a power semiconductor company with

offices in Tulsa and California, announced that global research and consulting firm Frost &

Sullivan has recognized the company's game-changing power conversion technology with the global 2015 New Product Innovation Award. Presented on Sept. 16 in Santa Clara, California, the Frost &

Sullivan New Product Innovation Awards are given each year to companies that have demonstrated

excellence within their industry and acceptance in the marketplace. Semitrex will receive the award

in the Internet of Things Power Conversion Module category for its high-efficiency transformerless IoT

AC/DC power supply. Noting that massive energy shortages from connected devices is a critical

challenge that needs to be overcome, Frost & Sullivan utilized quality, reliability and price/performance

value to benchmark Semitrex against key competitors. Frost & Sullivan concluded that Semitrex's TRONIUM

Power Supply System(s) on a Chip will make a positive impact on the impending

energy crisis through the use of its patented Muxcapacitor cascading capacitor voltage reduction technology.

Semitrex is a new breed of fabless semiconductor company enjoying successes in energy-efficient power

solutions. At a time when worldwide energy shortages are a reality and strict new efficiency standards are being enacted globally, Semitrex is creating impactful, revolutionary energy-efficient power products that are friendly to humans and the environment. Bellmon Awards recognizes businesses for sustainable practices. Several businesses were recognized for their impact on sustainable business practices at the annual Henry Bellmon Sustainability Awards Gala Sept. 17. The event also recognized R&G Grocers as the Project of Choice which will receive funding from the Bellmon Awards to further its mission to eliminate food deserts in the city of Tulsa. Over the last several years, Sustainable Tulsa and the Rotary Club of Southside Tulsa have worked together to honor companies, agencies, and individuals who have made an impact in our community through their sustainable practices. The two organizations also have worked to make a direct impact, gifting proceeds from the Bellmon Awards to our Projects of Choice â€” past recipients include the McLain Renewable Energy Project, the Bellmon Awards CNG School Bus Grant, GetOnBoardOK.org, and mobile grocer R & G Family Grocers. Awards included: 2015 Henry Bellmon Sustainability Award (overall winner): American Airlines, Tulsa Wheel and Brake Center Zero Landfill Project, 2015 Quality of Life for All Award: University of Tulsa, Yellow Bike Program 2015 Responsible Economic Growth Award: C3 Consortium (Oklahoma State University Institute of Technology, Oklahoma State University-Oklahoma City, & Tulsa Community College), Oklahoma Greenovation 2015 Environment Award: Kerr Center for Sustainable Agriculture, Oklahoma Pollinator Preservation and Education Program Sustainable Tulsa is leading Tulsa businesses and individuals through a new era of sustainability. Sustainable Tulsa provides the community with educational opportunities, sustainable strategies and tools through local projects, volunteers, events, and partnerships.
